

Breakfast and After School Club

- Somewhere safe and secure, a setting with access to an all-weather garden which allows parents piece of mind
- Partnership with families
- We run by the EYFS with the Every Child Matters programme embedded into policies and procedures
- We want to create a relaxed and stimulating environment which includes curriculum based activities drawn from the children interests although there will be an allocated homework time (as we appreciate how tired children are when they get home)
- An environment that promotes different backgrounds and linguistics needs which encourages respect and celebrates each other's festivals
- Help children promote to their full potential through positive social, emotional, physical and intellectual experiences
- To promote fun, homework and healthy eating (we will only serve fresh and healthy foods)
